授業の概要

In addition to raising health awareness the goal of this unit is to help students to develop English language skills for general use. Learners will take a critical look at various issues and present them in a logical manner.

授業の目的

The purpose of this course is for students to:

- improve their basic English health-related vocabulary
- ask and answer questions related to the text in English, and
- improve their overall communication skills through various activities

学習目標

It is hoped that through doing various tasks the students will also learn new health-related vocabulary as well as to become more aware of their own health and Quality of Life (QOL).

授業計画
